VINTAGE AGRICULTURAL MACHINERY SCHEDULE

No vehicles will be allowed on the Show Ground unless displaying an appropriate Vehicle Pass

Safety

Safety of exhibitors and spectators should be the foremost thought of exhibitors. No tractor, engine or machines are to be run without a person in attendance. They **must** only be operated by an adult who is fully trained in its safe use and use by inexperienced or untrained persons is not permitted. **PASSENGERS MUST NOT BE CARRIED ON TRACTORS UNLESS THEY ARE DESIGNED OR ADAPTED FOR THE PURPOSE.** Any use of equipment by persons under the age of 13 is prohibited. Use of equipment by persons over the age of 13 must be in accordance with the HSE Approved Code of Practice "Preventing Accidents to Children in Agriculture". Two persons must be present when vehicles are being reversed. Machinery must only be operated and demonstrated after ensuring that adequate precautions are taken to protect the operator and bystanders. Unsafe operation will not be allowed and may lead to eviction from the site and possible legal action by the relevant enforcing authority. Account must be taken of the risk to persons from materials which may be ejected from machines.

Machinery relying on oil pressure in a ram or similar device to support it must be physically propped to prevent collapse, irrespective of the type of safety device fitted to the hydraulic system. Account must be taken of the hazards that may be created during adverse weather conditions together with the risk of the exhibit being knocked over. Any ropes, chains or other devices used to tow trailers or vehicles on or off the event site or car parks should have been thoroughly inspected, be of adequate strength and be constructed for the purpose. Drivers must hitch the tow chain or rope below the axle of the towing tractor. Only tractors fitted with an approved safety cab can be used for this purpose.
